TREMOL FP01

An improved version of the previous model TREMOL FP01-KL.
One of the first certified fiscal printers which supports also the innovative functionality to issue fiscal receipts in electronic format. That makes it very suitable for sales reporting in electronic store without printing the receipt. The device is suitable also for all other businesses to print standard fiscal receipts. It has the option to work without power supply and supports various types of interfaces including LAN and WiFi (option).
