

TREMOL LTD – town of Veliko Tarnovo

Corporate Quality Targets

Our quality targets reflect our aim to constantly perfect and develop the organization to its growth and reaching high level of professionalism in all directions of our activity.

More specifically those targets are:

1. Extending the market share we hold in the country as well as abroad.
2. Extending the existing distribution network;
3. Development and introduction of new products;
4. Perfecting the existing software options with the purpose of extending the functional capabilities of articles and increase of customer demand;
5. Constant observing of the market needs and flexible reaction to changes thereof.

We will realize those objectives through:

1. Using highly qualified and competent personnel;
2. Constant increase of personnel's qualification;
3. Observation of achievements of competitive companies in Bulgaria as well as outside of it with the purpose of maintaining high level of competitive fight;
4. Constant introduction in the production practice of the latest models of production components;
5. Production process supervisions from first to last stage.
